

NETWORK OF CARE FOR MENTAL/BEHAVIORAL HEALTH
(www.networkofcare.org)

- Overview:** The Network of Care for Mental/Behavioral Health Web site (www.networkofcare.org) is an online information resource for individuals, families and agencies concerned with mental and emotional health issues. This Web site features critical information, communication and advocacy tools and ensures there is “no wrong door” for individuals who are navigating the system of behavioral health services.
- Background:** The Network of Care for Mental/Behavioral Health project began in 2002, when the California Department of Mental Health and Trilogy Integrated Resources LLC initially created “test” Web sites for four of the state’s 58 counties. These successful test sites eventually served as the model for the other 54 county sites. All 58 county sites are “live” as of May 2006.
- Funding:** The Network of Care for Mental/Behavioral Health is funded through the Mental Health Services Act, which was passed by the voters as Proposition 63 in 2004. (The four counties that participated in the initial testing paid for their own sites prior to the passage of the MHSA.)
- Partners:** California Department of Mental Health
County Departments of Mental Health
Trilogy Integrated Resources LLC
